FlyPensacola.com

In February, the Airport installed four "Charging Stations" in the concourse at the Pensacola Gulf Coast Regional Airport. Each charging station is located at Gates 2, 5, 7 and 8 and has a combined total of 15 outlets where business and leisure travelers will be able to recharge their electronics and enjoy the Airport's Free WiFi Internet service. With over 1.6 million passengers utilizing the Airport, this amenity will be a welcome addition.

Fly Easy. Fly Pensacola.
